They agreed that the money collected by Mrs. Boyle's committee from the public was in the nature of a "gift" to be expended by the District as trustee for the specific purpose of providing food for hungry school children. Maj Donovan ruled the District had no legal obligations to refund the money to Mrs. Boyle's committee, and Mr Seal held that since it had been placed

MEASURE'S OPPONENTS SEE VICTORY FINAL

Friends of Legislation, However, Express Confidence Filibuster Will Be Broken.

BACKGROUND-

Southern opposition to act making lynching a Federal offense precipitated a filibuster in Senate from opening day of present session. Despite night sessions and early convening hours, opponents of bill have talked on without sign of weakening, and only chance of breaking deadlock apparently resting in cloture proposal. Menwhile, all other legislation is blockaded.

By G. GOULD LINCOLN.

Efforts by proponents of the antilynching bill to end the filibuster which has tied up the Senate since the session began, failed today when an attempt to invoke the cloture rule was defeated.

The vote was 51 to 37 against cloture. A two-thirds majority is necessary to invoke such a rule.

The motion for cloture even failed to return a majority vote. Thirtyseven Democrats joined with 12 Republicans, one Farmer-Labor and one votes against cloture. Thirty-five Democrats, one Republican and one Progressive voted for cloture.

Opponents of the bill insisted the measure had been effectively stopped in the Senate. Within a few days they expect it to be laid aside and

Other bills of importance, including bill and the reorganization bill backed by the President, also are waiting their turn.

Refuse to Admit Defeat. Proponents of the anti-lynching bill, on the other hand, declined to is a social evil, and perhaps it isn't admit defeat. They still persisted in itself, but they don't realize the believing that eventually the filibuster conducted by a score of Senators, practically all from the South, could and would be broken either at this time or later in the session.

ON CRIME OUTLINED

BACKGROUND-Law-enforcement officials have blamed numbers rackets, with its huge revenues and criminal connections, largely for swift increase in crime here in recent years. needed to smash racket.

No more fines for numbers men will be recommended to the courts, but straight jail terms will be insisted on, Acting United States Attorney David A. Pine told the Washington Criminal Justice Association at the Willard Hotel as he outlined a major offensive on crime in general.

Describing the numbers racket as dangerous to the community because of its tendency to encourage crimes of violence, Mr. Pine said fines were useless in dealing with numbers writers independent to make a total of 51 and others engaged in the racket. Fines, he said, are regarded only as

"I've given directions," he said. "that no more fines are to be recommended in numbers cases or in any other gambling cases. Further than that the district attorney's office has nothing to do with the punishment-

that's up to the courts.' 20 Indictments Signed.

The police, he said, are making a drive on the numbers, and he signed 20 gambling indictments yesterday. He blamed "nublic apathy" for toltion of the

spread racket in the District, adding: "It's hard to get people to believe that betting a few cents on a number commitants of the game. The backers of the numbers are in an illegal business, and so are easy victims of hijackers. These backers can't complain because they would reveal their occupation. Violence is a resultantsometimes. I suppose because of at-

tempts to apportion territories." The acting district attorney said his offce had been working night and day to speed up disposition of the accumulation of pending cases he found when he took office in January.

Pending Cases Reduced. Since then, he said, 629 felony cases pending then had been reduced to 296 Tuesday and, although 122 new indictments had been brought in by the grand jury since the first of the year. the net reduction in cases awaiting

trial had been 174. He said his office was doing its best to combat "the alarming increase in crimes of violence, which is for out of proportion to the increase in population in recent years." Delays in justice, he added, en-

courage crime, since they give accused persons a chance to prepare a defense which sometimes is a "fix." "There is no greater deterrent to crime," said Mr. Pine, "than the certainty of speedy trials and sure pun-

In cases like armed robberies, he said, his office had been able to obtain indictments and bring cases to trial within a week in recent instances and it hopes to pursue this policy further. Joseph E. Rice presided.

Delinquency Report Given. An indictment against the community could be drawn from the report of delinquency among women and children, which Capt. Rhoda J. Milliken, head of the Women's Police Bureau, made at the association's crime forum yesterday afternoon. She told of one little girl who ex-

down crime and studying the conditions that produce it. Capt, Milliken expressed hope that Congress would pass the pending juvenile court bill, providing for a court of domestic relations to deal

with problems of homes as a whole. **CREW "SITS DOWN"**
